## FIERCE FIRE

Consumes the Felt Factory at the  
Industrial School, Lebert, and  
Almost Wipe Out Carberry.

Qu'Appelle, Nov. 27.—The felt  
factory at the government industrial  
school, four miles east of here, was  
totally destroyed by fire this morn-  
ing at 4 o'clock; total loss \$5,000.  
Owing to the wind being in a favor-  
able direction the other buildings  
of the school, costing the govern-  
ment over \$50,000, were saved.

### FIRE AT CARBERRY

Carberry, Nov. 30.—A great fire  
took place on both sides of Main  
street this morning. Twelve busi-  
ness places were burned, namely:  
Walker's bazaar; News office; Mor-  
ton, harness; H. McFetridge, boots  
and shoes; J. McFetridge, workshop;  
Sylvester, implement; Massey-  
Harris, implements; Thompson Eli-  
ott's blacksmith shop; Walker's liv-  
ery; Kennedy's restaurant; county  
court office; Roberts's furniture  
store. All the buildings were to-  
tally consumed. The contents were  
partly saved. The loss is about  
\$30,000; insurance not yet learned.

### "WISHED MYSELF DEAD"

How Many a Poor Dyspeptic Has the Same  
Wish—But South American Nervine Gives  
a New Lease of Life.

Mrs. Mary A. Simmott, of Penstangishene  
writes: "I was a great sufferer for over four  
years from nervous indigestion and a spe-  
cialist; often wished myself dead; was at-  
tended by best physicians; tried many remedies,  
but found very little relief. I was attracted  
to South American Nervine by reading of the  
wonderful cures wrought by it. I had about  
lost all faith in medicine, but I concluded to  
try it. One bottle wonderfully relieved me.  
I gained strength right away, my appetite  
returned and in a very short while I was  
completely cured. I cheerfully recommend  
it."

Sold by Henderson & Parker.

**Why Don't We See Things in  
Their True Light?**

Consult the eye expert for the  
world renowned Lemaire Optical  
Company London, Paris, and New  
York, and have your eyes properly  
examined by the above authority  
on optics. Can be consulted free  
of charge at Henderson & Parker's,  
sole agents for Qu'Appelle, to Dec.  
9th only. Consultation and exam-  
ination free.

### Hymeneal.

Scott-McLay.

A quiet wedding took place yesterday at  
the residence of Mr. and Mrs. T. E. Baker,  
Fort Qu'Appelle, Assa., the contracting  
parties being Mr. George W. Scott, eld-  
est son of Mrs. James Scott of this place,  
and Miss Mary E. McLay, of Fort Qu'Ap-  
pelle, the ceremony being performed by  
Rev. S. W. Thomson of Qu'Appelle Station.  
The bride was tastefully attired, Miss Lizzie  
Scott performing the duties of bridesmaid,  
while Mr. J. McLay, brother of the bride,  
assisted Mr. Scott as groomsmen. After  
the ceremony the couple sat down to a  
sumptuous repast. The bride was the re-  
cipient of many valuable and useful pre-  
sents. The Progress, among the host of  
friends here, joins in wishing the happy  
pair success and pleasant sailing over the sea  
of life. Mr. and Mrs. Scott will take up  
their residence at McDonald Hill.

### Moose Jaw Man Arrested.

Windsor, Nov. 30.—Donald Mc-  
Lean, a sheep rancher from Moose-  
jaw, who has been here for the past  
year, was arrested by an officer of  
the mounted police, charged with  
obtaining money under false pre-  
tences. They left for Moose-jaw  
last night. McLean is worth \$15,-  
000. He is wanted in a criminal  
case. The present charge was made  
to get him back.

The United States government  
will send supplies of food to Dawson  
City.

W. C. T. U. Column.

### A New Method of Treating.

A party of three or four gentle-  
men who were in a hotel a few days  
ago, were invited to "take some-  
thing" by one of their number.

After they had taken it and had  
chatted a few minutes, another of  
the party solemnly suggested that  
it would be well to "take some-  
thing." They accepted the invita-  
tion and then started out. In a  
few minutes, as they were passing  
a dry goods store, another of the  
party stopped them and said: "Let's  
go in and take something?" "Why,  
that's a dry goods store," said one.  
"Well, what of it? Come in." In  
they marched, and, ranging them-  
selves before the counter, the gen-  
tleman who had invited them in  
propounded the question: "What  
will you take?" One of the party  
took a box of collars, another took  
a clean shirt. When the bill had  
been settled and they walked out,  
they looked at each other foolishly  
and began to see the foolishness of  
the treating business. If men must  
treat, why not do it in a dry goods  
store?

Dec. 1.—Barometer reduced to sea level,  
30.025.

—Samuel Hanna, a well known farmer of  
this ward, was found dead in a well on his  
farm on a day last.

When a young woman sits down and  
ponders over her future life, there is one  
all-important subject which she should not  
forget. In a day dream she may build  
castles in the air with a happy home, laugh-  
ing children and a loving husband in the  
fore-ground. At that moment she may be  
facing death. Matrimony and motherhood  
hold out no happiness to the young woman  
who suffers from weakness and disease of  
the distinctly feminine organism. The wo-  
man who suffers in this way will be a weak,  
nervous, sickly, petulant wife, an incapable  
mother and an unamiable hostess. Not  
knowing the truth, her acquaintances will  
not understand that she is deserving of  
pity rather than reproach.

Any woman may be strong and healthy  
in a womanly way if she will use the right  
remedy. Dr. Pierce's Favorite Prescription  
is the best of all medicines for weak and  
ailing women. It acts directly on the de-  
licate and important organs that make with-  
hood and motherhood possible. It makes  
them strong, healthy and vigorous. It  
banishes the dangers that surround ma-  
ternity. It insures a healthy baby and an  
ample supply of nourishment. Thousands  
of women who were weak, sickly, nervous  
invalids, are now healthy, robust wives and  
competent mothers of healthy children, as  
the result of the use of this medicine.

Mrs. John M. Conklin, of Patterson, Penna.,  
Co., N. Y. (Box 104), writes: "I am enjoying  
perfect health and have been since I took the last  
bottle of Dr. Pierce's Favorite Prescription. I  
had falling of the internal organs, or female  
weakness, and flowing caused by miscarriage,  
and was very weak when I commenced taking  
your medicine."

The unfailing, never-failing cure for  
constipation—Dr. Pierce's Pleasant Laxative.

Editor and Proprietor

THURSDAY, DEC. 2, 1897.

### HELPING IMMIGRATION.

The following letter, dated Fort Qu'Appelle, Oct. 15, appears in the Canada Gazette, published in London, Eng., Nov. 4. Mr. Joyner, the writer, takes a deep interest in the building up and development of the Qu'Appelle district and the Territories generally, and uses his pen and influence for the benefit of the country, expecting no other reward, as he is not a paid agent. Why it is there are not more like him in this country, for then the problem of how to increase immigration would be solved. Mr. Joyner is making a collection of letters giving experiences of settlers in the Northwest, which will be published from time to time in the Gazette, thus letting the public of Great Britain know of their success in the Northwest. These letters may be sent to the Progress if more convenient, and will be forwarded through Mr. Joyner to the Gazette. Now that farmers have a little leisure they cannot do better than sit down and write their experiences and impressions of the country in which they have made their homes; by doing so a great impetus to immigration will be the result.

"I cannot tell you how nice it was to sniff once again the fresh prairie air

and to feel its light, invigorating touch after months spent in London. It was just like a new lease of life. On arrival in the west I found everybody jubilant by reason of the good crop, safely harvested, and a good price for it. The price was 80 to 85 cents per bushel, and this on the top of a bumper crop last year has put new heart into the farmer. There has not been such a general bright feeling all around for years. As showing how much more prosperous farmers are now, take a small illustration. You see farmers, quite in a small farming way, walk into a store and make numerous purchases, and instead of asking for credit, as of yore, pull out a cheque book, as if an everyday occurrence, and write a cheque for the amount; for men who a few years ago had next to nothing all have bank accounts now.

I am making a collection of letters containing real concrete facts about the North-West, some of which I think will surprise even also some threshing yields. As usual, the North-West Territories are out and away ahead of Manitoba (which has a light crop this year) but you must wait a few weeks for the full evidence of this, for farmers are too busy threshing and working on land, ploughing, etc., to get at just now. One farmer I spoke to to-day has forty-five bushels per acre No. 1 hard close here.

This has also been a splendid year for stock. Large quantities have been shipped from here in splendid shape, and prices are good; a fairly good beast would net here \$39 to \$40 (£7 16s to £8).

We have had a splendid fall: quite hot, but good for all outdoor work. We had a little snow last week for a day or two, but it is beautiful again now, sun and warmth all the time. I append a few newspaper extracts.

H. B. JOYNER.

About five tons of grain of various varieties wheat, oats, and barley is being prepared at the North-West Experimental Farm (Indian Head) for shipment to Siberia via Vancouver and Vladivostok. The Russian Government is about to start a number of Experimental farms along the route of the Trans-Siberian Railway, and this grain is being forwarded to them. A similar quantity is going from the Brandon farm.

The shipments of cattle this season from Manitoba and the Territories will be the heaviest in the history of the North-West. Already the number exported is in excess of the total of last year, and yet Gordon & Lombard have sent 1,000 head to ship before the close of the season, which alone will aggregate between 17,000 and 18,000 head, and many of the western ranchers are contracting for the supply of cattle next month. The record of 1895 was a phenomenal one, but the total of this year will be considerably in excess, and a feature of this season's export has been the satisfactory price paid farmers for their cattle.

There was a busy day at the Station last week when the Touchwood and our local cattle men were sending off their big shipments. No less than thirty-four cars were loaded up.

Mr. A. E. Iredale entertained lately at his shooting box Dr. Cotton and Messrs. Methow and Barton, of Regina, the party making a bag of 175 ducks and 13 chickens.

Judge Wetmore, of Mooseomin, is leaving to preside at the Supreme Court at Regina and Yorkton. "The number of cases this sitting is small," said the Judge; "in fact, there is only one criminal case. All through the Territories crime is at a low tide, and this is chiefly owing to the excellent discipline of the Mounted Police. I think the Government would make a mistake if they reduced the force at all. People in the East think that the police are of little use as they do not hear of any troubles in which they figure prominently. Mind, I do not say that some of the municipalities should not provide police protection, but west of Whitehead the Mounted Police should have charge of law and order."

UNDER the amended Ordinance respecting elections the issue of the writs will be controlled by the clerk of the council. The time between the nomination and election is shortened to two weeks, to "shorten the agony," so to speak. Provision is also made to have the pencils under the control of the deputy returning officer, so they could not be carried away. On suggestion of Mr. Clinkskill it is proposed to allow any kind of a mark on the right side of the ballot paper to count for the person represented by the color of the pencil. This will reduce the chances of spoiled ballots to a minimum.

A RUMOR from Ottawa says that Lieut.-Governor Patterson of Manitoba is likely to be succeeded by Sir Henri Joly, and that Gov. Patterson will be transferred to the Territories. In the absence of a local man Gov. Patterson, will

## Would Not Consent

To be Operated On at the Hospital

The Lady Uses Paine's Celery Compound and Is Cured

Mrs. Saunders, of Bracondale, a suburb of Toronto, lay in the hospital suffering from a trouble quite common with her sex. At a critical time in her sickness the doctors deemed that an operation was necessary. Mrs. Saunders wisely refused to submit to the decision of the medical staff, and decided to try the virtues of Paine's Celery Compound.

After being blest with a complete cure, Mrs. Saunders wrote as follows:

"It is with much pleasure that I testify to the value of your wonderful Paine's Celery Compound. I was a great sufferer from severe attacks of neuritis in the left ovary."

At times the attacks were so acute that I thought I would lose my reason. "Several doctors treated me, and I was a patient in St. Joseph's Hospital, Hamilton. I obtained no relief from medical treatment. The doctors said unless I had the ovary taken away I could not be cured."

"Instead of submitting to the operation I used Paine's Celery Compound, and I am thankful your valuable medicine cured me. I feel like a new woman, and I would like all sufferers to know just what this great medicine has done for me."

prove acceptable to the Territories, as he is very popular in Manitoba. It is a pity, though, that we have to get our supply of governors from the breeding grounds of Ontario or Quebec—our own little ranch in the west should be able to supply the demand.

THE result of the bye-election in Turtle Mountain, Man., gives James Johnston, Conservative Independent, a majority of 150. At the general election in '96, the late John Hettle, Liberal, defeated the Conservative candidate, Mr. Miller, by 23 votes.

### RHEUMATIC AGONY!

There's Delightful Relief in One or Two Doses of South American Rheumatic Cure.

E. H. Norton, of Grimby, Ont., says: I tried homeopathic and other remedies and was under medical attendance for inflammatory rheumatism. None of them gave me any relief. My legs and arms were useless. I could do nothing for three weeks. I was confined to my bed and suffered agonies. I was advised to try South American Rheumatic Cure. I felt better after two or three doses. Four bottles completely cured me, and I am as well as ever I was. Sold by Henderson & Parker.

—The \$1 bills of the new Dominion issue are not safe to leave in circulation. The ground work is the same as that of the revenue stamps used on cigar boxes, and by simply cutting out a figure from the latter and pasting it over the figure 1 of the bill a five dollar bill can be manufactured that will be accepted ninety-nine times out of one hundred without detection.—Free Press.

An outline of the proposed new treaty of arbitration is published.

BETWEEN \$200 AND \$300  
GONE.

STILL HIS CATARRH REMAINED.

A 25 CENT BOX OF DR. CHASE'S  
CATARRH CURE DOES  
EFFECTIVE WORK.

Catarrh sufferers and those afflicted with Coid in the Head, Hay Fever, Hawking and Spitting, Foul Breath, Loss of Taste and Smell and the many disagreeable and disastrous consequences attendant upon these, should lose no time in procuring Dr. Chase's Catarrh Cure.

Mr. J. W. Jennison, Gilford, Ont., writes as follows: "I spe t between two and three hundred dollars, tried all kinds of treatments, but got no benefit. One box of Dr. Chase's Catarrh Cure did me more good than all other remedies. In fact I consider myself cured, and with a 25 cent box at that."

Sold by all Dealers.

Complete with Blower at 25 cents.

## A Grand Offer

The Family Herald and Weekly Star, acknowledged by all to be the best family paper in America, and The Progress for \$1.75. Call early and renew your subscription as this offer will only be for a limited time. Every new subscriber to these two papers will receive the beautiful premium picture, "It Fell From the Nest."

### A Great Victory

or Edmond, Bates & Co., Toronto, Ont.

## News Notes.

Hon. W. S. Fielding sailed from London on Tuesday.

Baton Pollock, of the English high court of justice, is dead.

Two schemes of army reform will be submitted to the British Cabinet. O. A. Hawland was nominated as Conservative candidate for Centre Toronto.

The trouble in the Royal Scots of Montreal, is being discussed in its press.

Premier Meline, of France, promises reforms beneficial to agricultural interests.

Welsh immigrants to Alberta complain of their treatment in the Welsh newspapers.

Grenier, convicted of libelling Hon. J. I. Tarte, has been released from jail.

Eleven vessels of the Russian Black Sea fleet are ordered for immediate service.

Gilliam, the St. Liboire murderer, waived extradition, and is en route to Montreal.

One hundred and fifty black soldiers of the First West India regiment, mutinied at Kingston Jamaica.

Thomas Davidson, messenger for the Hochelaga Bank, Winnipeg, has suicided by shooting.

China charges Germany with a breach of international equity in the Kia Chan affair.

The leaders of the Philippine rebellion have surrendered to the Spanish authorities.

Two men were killed and one seriously injured in railway accidents at Willow Creek and Old Man's River, Alberta.

In the Manitoba provincial bye-elections Mr. Fowler, Liberal, was elected by acclamation for South Brandon.—Mr. Johnston, Liberal, and Mr. Nicol, Conservative, were nominated for Turtle Mountain.

Professor Macoun says Canadian sealers have acted strictly within the law in Behring sea.

Mrs. Olive Sternamen was convicted of murder and sentenced to be hanged on January 20th.

## Indian Head Items.

(From our own correspondent.)

James Woodin, one of A. Hollingshead's brush swingers, went east on Saturday night's train, for New Glasgow, N.S. He was joined here by Alex. Murry, blacksmith, of Qu'Appelle Station, who is bound for the same place. We wish them a pleasant trip.

Miss Rennie has opened a dress-making establishment over George Thompson & Co.'s store.

Wood and coal are in great demand here, but cold weather is plentiful enough at present.

The first meeting of the Bachelors' Boxing club, was held here on Saturday, and was well attended. The chairman called the meeting to order, and on the roll being called it was found that one or two had deserted the club, intending in the near future to take unto themselves partners for life. The flag will fly at half-mast in memory, for we as bachelors consider them dead to the club forever unless they repent and return to the fold. Next came the election of officers, which some of our brothers took with honors. The following were elected: Ted the Miser, caretaker; Jack the Turner, chairman; Billy the Bouncer, duster; Billy the Kid, bell boy; Deadwood Dick, flagman;

## WEAK AND WEARY WOMEN FIND A REAL FRIEND IN SOUTH AMERICAN NERVINE.

PERHAPS he was a cynic, but some one has said that in this age there are no healthy women. The age has many women, strong and noble physically, as they are mentally and morally; but it is true nevertheless, that a large percentage of the women of the country suffer from nervousness and general debility. They drag out a weary existence, and each day is a day of pain and suffering. This was the case with Miss Annie Patterson, of Kankakee, N. B. She suffered terribly from indigestion and nervousness. She was influenced by some one, somehow, to try South American Nerve. Of course, it was like hoping against hope—another patent medicine. But she had taken only one bottle when her system began to take on the health of earliest years, and after using three bottles she was completely cured. No wonder she is strong in her conviction that there is no remedy like South American Nerve.—29.

Jack the Tough, mayor. The meeting came to a close by singing—

Where is now the merry party,  
Who were here last year?  
They have all dispersed and wandered,  
But will return filled up with beer.

## Well Dressed Children where Diamond Dyes Are Used

Mothers who wish to save money and who are economical in home management, are not obliged to buy clothing for their children as frequently as some mothers do.

This saving of money is due to the fact that the economical mothers are regular users of the wonderful Diamond Dyes that always make old things look as good as new.

The Diamond Dyes show such a variety of standard colors that mothers can now dye any of the fashionable colors and shades seen in the new autumn dress goods. At the very small cost of ten cents an old dress can be made stylish looking and serviceable for a long time.

If mothers would have success with home dyeing they must use the Diamond Dyes at all times. All imitations and mixtures of soap and coloring matter should be avoided, with care, as they are ruinous to good materials. Diamond Dyes are the best in the world, they are pure, strong, brilliant and last forever.

## Spencerville Splashes.

(Let over from last week.)

Miss Mitchell paid Mount Prospect a flying visit on Sunday.

Mr. J. McMichael and his intended Sun layed in the south.

So numerous are the "would-be" members of the M.A. society, that the society has resolved to make known its proper name, which is the "Mutual Admiration," or the Lovers' Roost society.

The jumper that only touches the high places was observed winding its way southwest on Sunday 14th inst, leaving one of its occupants at the church to walk home.

Rev. Mr. Galley will visit Spencerville shortly. It is rumored that many matrimonial alliances may be the fruits of his visit.

## KIDNEY WARNING

A Score of Symptoms Tell the Victim that Kidney Disorders Have Fastened Themselves on Him—South American Kidney Cure is the Potent Remedy.

A simple backache, or a little pain in the kidney region, may cause you no alarm, but it is one of the never-fading signs of kidney disease, and to neglect the warning may mean the deep seating of that most insidious of diseases which puts more people in an untimely grave than all other causes combined. South American Kidney Cure relieves in six hours, and cures permanently. Sold by Henderson & Parker.

## Coming.

This is a great opportunity for those suffering from defective eyesight to have their eyes properly examined, and be advised as to requisite glasses. The eye expert for the world renowned Lemaire Optical Company of London, Paris and New York, will be at the store of Henderson & Parker, sole agents for Qu'Appelle, on Dec. 9th only.

Consultation and examination free.

## Scientists Want a Language.

German scientists are preparing a statement that will be sent to all academic bodies in the world, asking that an international agreement be arrived at designating a language that shall be used by scientists. As in olden times the Latin language was used by all persons of distinction in addressing another with whose native tongue they were not themselves conversant, so it will be proposed that either English, French or modern Greek be so called as the medium for international communication.

The language selected will be made an obligatory part of higher education in all countries of the world, and scientific men, inventors and explorers, will use it exclusively both in lectures and in their published writings. Not so many years ago Volapuk was thought to be the universal language of the future, but its very artificiality, first considered an advantage, killed it in the eyes of the scientific world.

Of the three languages named, the use of English seems most likely, for France has lost not only in political influence, but also in population, while the English-speaking races practically rule the world. It is claimed that the English language is easily learned and rich in expressions that fit scientific and international subjects generally.

According to articles in the German press, it is not unlikely that the German scientific world will vote for the adoption of English as the universal language, provided the impediments of our present queer orthography are removed.

## Cementing Leather to Iron.

To cement leather to iron, cut the leather roughly to shape, allowing about one inch per foot in the width of the pulley. Then soak the leather in water until it is wet through. Now stretch it well in the direction of the circumference of the pulley and cut it to exact shape and length. It should next be seen up, but to butt with a shoemaker'sawl and thread and the leather, having been stretched in the direction of circumference only, will, as it gets dry, have a tendency to resume its former shape, thereby shortening a circumference and "clip" to the pulley. A shadow groove might be made for the stitches to sink in.

## Progress of Antidote Treatment.

Furbringer's statistics for the antidote treatment during 1893 show 6,000 cases, with 144 deaths, or a mortality of 17 per cent. In the year previous there had been 581 cases in the hospital, half of which only were subjected to the serum treatment, and the mortality had been over 50 per cent. Only one accident resulted from the injections. In a child of seven years, syphilis having two minutes followed what was supposed to have been an injection into a vein, by the employment of violent revulsive agents, the child was brought back to life.

## A New Kind of Candle.

Prof. Laroche makes a new kind of candle by dissolving five parts of colorless gelatine in 20 parts of water, adding 25 parts of glycerine and heating until a perfectly clear solution has been formed. To this is added 2 parts of tannin dissolved by heating in ten parts of glycerine. A turbidity is produced which should vanish on further boiling. The boiling is continued until the water has been driven off. The candles obtained in this way are as clear as water and burn quietly and without smoking any odor.

## ITCHING CREEPING CRAWLING STINGING

SKIN DISEASES RELIEVED BY ONE APPLICATION OF

## Dr. Agnew's Ointment, 35 CENTS.

Mr. James Gaston, merchant, Wilkesbarre, Pa., writes:—For nine years I have been disfigured with itchy hands and face. But at last I have found a cure in Dr. Agnew's Ointment. My skin is now smooth and soft and free from every blemish. The first application gave relief.—30.

ONE HONEST MAN.

To the publisher:

Please inform your readers that if written confidentially I will mail in a sealed envelope the plan pursued by which I was permanently restored to health and manly strength after years of suffering, nervous weakness, lost vigor, unnatural discharges, and lack of development.

I have no scheme to extort money from any one. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but, thank heaven, I am now well, vigorous and sound, and anxious to make this certain means of cure known to all.

Unsolicited endorsements from my grateful friends who have been cured through my free advice:

Mr. Munford: "I saw your notice in the paper some time ago, and wrote you about my case. After following your advice, which you so kindly gave me, I am very glad to say that I am now perfectly cured. I wish to thank you a thousand times for your kindness."

"Heaven grant you a long and prosperous life, is the wish of a cured friend."

"Judge of my surprise to receive a kind letter of so valuable advice, absolutely free."

"It is the first advertisement that I have answered that did not ask me to call at the express office and pay for medicine that I had not ordered."

"I am happy to say that you are truly an honest man, and deserve the endorsement of both pulp and press."

In conclusion: I have nothing to sell and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness. Perfect secrecy assured. Address with stamp, Mr. Wm. T. Munford, Agents' supplies, P.O. Box 59, St. Henri, Montreal, Can.

Local and General

—Curfew starts on Saturday night.  
—W. Slater expects to open the skating rink Saturday.  
—Miss Williams of Winnipeg, is visiting Mrs. D. H. Caswell.  
—W. F. Cady of Brandon, was a guest at the Queen's this week.

—The conflict between British and French forces at Lagos, is ended.

—Dr. Fleming of Brandon, died suddenly of heart disease Friday last.

—Remember the mortgage sale at S. T. Gibbons stable's on Saturday.

—Trains from the east and west have been arriving at all hours lately.

—The reported robbery at Lumsden turns out to be an error in book-keeping.

—It is said that a new butcher shop is about to be opened on Caswell street.

—Albert Gordon returned from Penticton, B.C., last week, and will remain at home for a time.

—Mrs. J. H. Moore left for Ontario, on Tuesday morning to visit friends and relations.

—If "A Ratepayer" will furnish us with his name, we shall be pleased to publish his communication in our next issue.

—The Canadian postoffice department will reduce the letter postage to 3 cents per ounce to all parts of the British Empire.

—John West, for several years, viceroy of St. Peter's pro-cathedral, has resigned. He is succeeded in office by G. C. D. Edmunds.

—A lynx was shot a few days ago by Ernest Bird near McLean. The animal was hurt to kill, no less than three balls being necessary to destroy it.

—Mrs. J. H. Boyce of Belatee Bangalow, had the misfortune to slip and dislocate her ankle one day last week. We are pleased to state that she is improving.

—There has been considerable activity in dressed logs this week, private citizens showing a disposition to buy the "whole" hog and freeze out the butchers.

—S. T. Gibson's new feed, sale and exchange stables, corner Pacific Ave. and Walsh st., are now open. Charges moderate. Careful and obliging attendants.—Ad.

—This cold, blizzardish weather has laid up a number of our townspeople, and has demoralized our staff, which accounts for the late appearance of the paper this week.

—J. W. Shea was shot in a disorderly house at Edmonton on Sunday last, by Frank M. Gray. The wound was not serious, Shea had called at the house for a companion.

—It's not the cough, but what it may end in, that makes it so serious. The cough may be cured, the serious consequence prevented by Dr. Chase's Syrup of Linseed and Turpentine. Price, 25 cents, at all druggists.

—The Department of Agriculture has issued a bulletin on the diseases, packing and shipping of poultry. It contains valuable information for those who merely drop-pout y for the local market. Postal card applications for copies should be sent to the Department, Ottawa.

—A conference of delegates from cream-ery associations, cheese factories and collecting stations, and of others interested in dairying in the Northwest Territories, will be held in the town hall, Regina, on Tuesday, Dec. 7, at 10.30 a.m. Mr. Kinsella will be present.

—The C. P. R. land department is selling a lot of land just now. The sales for today were the largest for some time past for one day, aggregating 3,200 acres. The average price paid was \$3.30 per acre. The amount paid in cash, which could not be less than 1.00 a down, was also very good on the average. —Winnipeg Tribune.

—A private letter received in town gives the information that A. C. McKay (better known as Dolly) formerly in the N. W. M. P. as tailor, and after working for E. J. Hill, was shot dead while driving between Wilber and Davenport, in Washington Territory, by a man named Harrington, who says the shooting was accidental. McKay was 29 years of age. —Lethbridge News.

—J. A. Kinsella, superintendent of Government dairies for Regina district, reports a very successful season this last year, having made about 350,000 pounds from 11 creameries, four skimming stations and seven cream gathering stations, which will not be put in the neighborhood of 16 cents. A large quantity of this make has been shipped to the British markets.

—As we go to press, we hear that the success of the Family Herald and Weekly Star of Montreal is attracting universal attention. New subscribers are simply flocking to the Family Herald and Weekly Star. To subscribe to such a paper is like getting a twenty dollar gold piece for a dollar. The Family Herald and Weekly

Star of Montreal is easily the most wonderful production before the world today.

—The fuel question now agitates the minds of those unable to lay in a store at the beginning of the season. For days at a time there is no wood to be seen on the streets and the supply of Galt coal often runs short. People are beginning to use more Souris coal, which this year seems to burn much better and throws out an excellent heat when properly started. Of this coal there is generally a good supply on the market, and is reasonably cheap.

—The Presbytery of Regina meets here Dec. 8th, at 9 o'clock, and will be opened by a sermon by Rev. A. J. McLeod, principal of Regina Industrial School. As this year is the 250th anniversary of the famous Westminster Assembly of Divines, commemorative services are being held in the Presbyterian church throughout the world. The presbytery will devote the evening session, beginning at 7.30, to this purpose. Popular addresses will be given on different topics relating to the assembly and its work.

OLD MEN AND KIDNEY DISEASE

Aged persons troubled with weak back, impaired kidneys, pain in the back and base of abdomen, scaling urine, with a small quantity of water at a time, a tendency to urinate often, especially at night, should use Dr. Chase's Kidney-Liver Pills. You know the doctor's reputation, you know the value of his work, and that Dr. Chase would not risk his reputation on an unknown and untried remedy. Every druggist in Canada sells and recommends them.

Eyesight is Priceless.

Do not forget to see the eye expert of the world renowned Lemaire Optical Company of London, Paris and New York, at the store of Henderson & Parker, on Dec 9th only. Consultation and examination free.

Spencerville Splashes.

(From our own correspondent.)

The concert on Tuesday evening proved to be one of the most successful ever held here. Mr. Hardy occupied the chair, and the program consisted of singing by the senior pupils of the public school, under the careful guidance of Miss Mitchell, their painstaking teacher, reading by H. Aspinall, song by H. Wease, reading by Mr. Blakeney, boy's composition on "Man" by R. McMichael; recitation by W. Cates, recitation entitled "Spencerville," composed and rendered by Mrs. Downing was well received by the audience, who are pleased to have a lady of such poetical genius amongst them. Solo by James Adderson, reading by Miss Mitchell, recitation by Master Herbert Bailey, entitled "When I'm a Man," was especially good. Recitation by S. Barnsley was fair; a reading by Mr. Bray, entitled "Spencerville Threshers," was continuously applauded and caused much merriment. Mr. Holt's comic songs "It's coming on again" and "They wanted me" were deservedly enjoyed and much appreciated. At the end of the program the ladies kindly treated everyone to cake, fruit and taffy, so nicely made, after which the meeting closed by singing "God Save the Queen."

A petition has just been circulated and almost unanimously signed by the people here, asking the school trustees to endeavor to retain the services of Miss Mitchell to take charge of the school for another term. We feel confident that if the trustees will exercise the same good judgment which they have in the past and succeed in inducing this young lady to remain with us for another year, after which we have no doubt that one of our far-sighted young bachelors from Echo farm will succeed in persuading her to locate here permanently.

Sam Bailey has disposed of his handsome gray team to a new arrival here, at a very fair price.

It will be noticed that the jumper which only touches on the high

RUBBERS,  
MOCCASINS,  
ETC., ETC.

We have also put in stock a car-load of New Groceries, which we are selling at specially low prices

Our store is large, warm and well lighted, and customers will find everything shown to advantage, and will have full opportunity to examine our goods and compare prices.

We invite the public to call and see us, and can assure them that their visit will repay them.

SINGING

M. R. H. S. HULME GOODIER, pupil of the late Sir Joseph Baney, is prepared to give singing lessons in and around Qu'Appelle. For terms, times and all necessary information, apply to him at the Leland House, Qu'Appelle Station. 7-3m

places has commenced its peregrinations for the season.

Messrs. McMichaels are busily engaged delivering grain to the McLean elevator.

Sam Barnsley of Coyote Crossing, Assa., paid his respects to Spencerville last week; looking hale and hearty.

Mr. Dawson, teacher of Pheasant Plains and Miss McMichael of Mount Prospect are visiting at the Syndicate Farm.

News Notes.

Ontario legislature was formally opened by Lieut. Gov. Sir Oliver Mowat on Tuesday.

James Fisher, M. P. P., Manitoba's representative on the Hudson's Bay expedition, has returned home.

Additional details of the storm on the English coast tell of great loss of life and destruction of property.

G. O. Bertram, Liberal, was elected for Centre Toronto, by 276 majority over O. A. Howland, Conservative.

A Splendid Premium.

A Great Jubilee Picture for Weekly Tribune subscribers.

That admirable family and general newspaper and farmers' friend, The Winnipeg Weekly Tribune, is presenting its subscribers for the coming year with a beautiful jubilee souvenir in the shape of a magnificent group picture entitled "Queen Victoria and Her Premiers." This great picture embraces true to life photos of Her Majesty the Queen; Lord Salisbury, Premier of Great Britain; Sir Wilfrid Laurier, Premier of Canada; together with pictures of the Premiers of every colony in the British empire. The collection is tastefully grouped, making a large handsome picture in several colors, convenient for framing. It will be prized not only as a splendid work of art, but will be worthy of transmission from generation to generation as a beautiful souvenir of the Jubilee year. This Jubilee picture will be entirely unlike anything heretofore produced, being prepared especially for The Weekly Tribune, and can only be obtained by subscribers to that paper.

A copy of this fine premium and The Weekly Tribune to Jan. 1, 1899, is sent to any address for \$1. The Weekly Tribune already the largest paper published in Canada west of Lake Superior, and always in the van of progress will undergo several improvements during the coming year. Address all orders to The Tribune Publishing Co., Winnipeg.

Stage leaves Qu'Appelle Station and the Fort to suit passengers

Yet, if the material conditions of human life have been changed—if the accumulation of capital and the increase of the productive force of man's labor have gradually added to the general as and given workmen a relative independence and rights which they did not formerly possess, and which are extending every day for the good of the race—such advance, we should never cease to recollect, is not due to historic accidents or scholastic or religious or philosophical discussions, but is attributable essentially to the growth of science and to the increase of general wealth brought about by it.

This immense development of wealth and industry, as well as the correlative development of the liberal and democratic spirit, are due, we declare loudly to the discoveries of modern science. If the supply of food at the disposal of the human species goes on increasing, it is not by the effect of logical reasoning or theological demonstration, but by the necessary results of discoveries in chemistry, mechanics and physiology, which have already transformed agriculture and will transform it still further in a near future. However slowly peasants may change their traditional practices, we have taught them how to get from a field in a given time, with the same amount of labor and expenditure a much larger quantity of wheat than the field formerly produced, and we are, in this matter, still very far from the goal that science permits us to set before ourselves. —M. F. E. Berthelot in Appleton's Popular Science Monthly.
